

SALUS Electronic Room Thermostat

Model Nos:- RT10 - 24v / RT10 - 230v

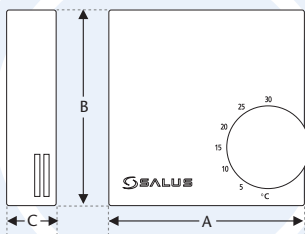

The RT10 is a feature packed electronic room thermostat and available in both 24V or 230V.

The accuracy of the RT10 will improve system efficiency and reduce running costs. As other Salus products the RT10 boasts simplicity in installation and use. The RT10 is designed for underfloor heating installations, if used for domestic central heating installations please make sure that the three switches, PWM, PPF and NSB are switched to the off position. The switches can be found internally within the unit.
