

SALUS

Programmable Room Thermostat

Model No. RT500

The RT500 is a stylish 5/2 or 7 day programmable room thermostat, which has been designed to provide automatic time and temperature control of all domestic central heating applications. The RT500 can switch circulating pumps, boilers and motorised valves. Intended where the householder has a variety of heating needs from day to day, the RT500 thermostat gives you a feature packed unit but still maintains simplicity for the user.
