

SALUS Wiring Centre

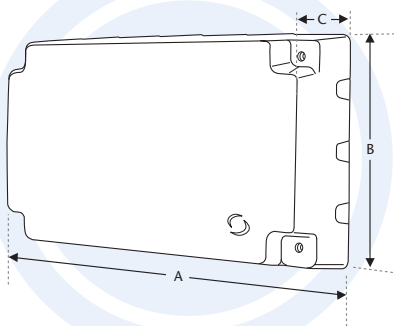

Model No. TC100

The TC100 is a simple way of wiring the heating system of your choice; the wiring centre includes diagrams for all standard heating systems, as well as those using combination boilers. Using a wiring centre is a safe and convenient method of wiring a heating system, which makes system testing a simple task. Manufactured in a flame retardant plastic with large connections for easy fixing and cable clamps to keep wires in position.
